Double Slit LLC — AI Bot Templates Catalog

Seller: Double Slit LLC (North Carolina) · Date: 2026-10-28 · ds-usg.com

---

Four AI helpers that run in Grok. They check a bot for leaked passwords or personal info before you share it, show what access a connection really needs, walk through your Creator Rewards setup each pay period, and get a Capabase listing ready to publish. All four are free to try in Grok. Creator Pay Desk and Capabase Seller Desk are free; Template Scrub Desk and Connector Scope Check are also sold on Capabase. Each one drafts — you decide. No outcome guarantees.

Template Scrub Desk — $59 USD

Before you share or sell a bot, it checks for passwords, keys, or personal info you didn't mean to leave in.

What it is

Template Scrub Desk is an AI helper for Grok. Paste in the bot profile, skills, or export you plan to share, and it points out passwords, keys, and personal details you may have left in. You decide what to remove.

Features

- Checks bot profiles, skills, routines, and exports
- Flags passwords, keys, and personal info before you share
- Each finding marked clear or needs action
- You decide what to remove or keep

Who can use it

Anyone sharing or selling a bot, a profile, or a set of skills.

How to use it

1. Try it free in Grok, or buy it on Capabase.
2. Paste the text you plan to share.
3. Review each clear / needs action finding.
4. Remove what you need to, then check again before sharing.

Price

$59 USD · Sold by Double Slit LLC on Capabase. Free to try in Grok.

Connector Scope Check — $49 USD

Before you connect Gmail, Drive, Stripe, or GitHub to a bot, see exactly what access it needs.

What it is

Connector Scope Check is an AI helper for Grok. Before you connect Gmail, Drive, Stripe, GitHub, or your calendar to a bot, it walks you through what access the bot really needs, so you only grant that. It never connects anything for you.

Features

- Plain checklist for Gmail, Drive, Stripe, GitHub, and calendar
- Shows the least access each connection needs
- Never connects accounts for you
- You approve every connection yourself

Who can use it

Anyone about to connect personal or business accounts to an AI bot.

How to use it

1. Try it free in Grok, or buy it on Capabase.
2. Tell it which accounts you plan to connect and why.
3. Compare the access requested with what the job needs.
4. Connect accounts yourself — the bot never does.

Price

$49 USD · Sold by Double Slit LLC on Capabase. Free to try in Grok.

Creator Pay Desk — Free

Checks your Creator Rewards and listing setup each pay period and drafts the posts you're missing.

What it is

Creator Pay Desk is an AI helper for Grok. Each pay period it walks through your Creator Rewards and listing setup, marks each item ready or needs action, and drafts the posts you still need. It makes no promise about payouts or eligibility.

Features

- Pay-period checklist for your Creator Rewards and listing setup
- Each item marked ready or needs action
- Drafts the posts you're missing — you review before posting
- No payout, eligibility, or sales guarantees

Who can use it

Creators who share Grok bots and want a quick, repeatable check each pay period.

How to use it

1. Open it free in Grok and add a copy.
2. Walk the pay-period checklist with the bot.
3. Fix anything marked needs action.
4. Review any drafted posts before you publish them.

Price

Free in Grok. Nothing to buy.

Capabase Seller Desk — Free

Gets your bot listing ready to publish: fields, disclaimer, and screenshots checked; drafts only.

What it is

Capabase Seller Desk is an AI helper for Grok for people who list bots on Capabase. Before you publish, it checks your listing fields, disclaimer, and screenshots, and drafts the About and how-to-use text. It never submits anything for you.

Features

- Listing checklist: each field marked ready or needs action
- Checks that your disclaimer is in place
- Screenshot and sample-output checklist
- Drafts About and how-to-use text — never submits for you

Who can use it

Sellers getting a bot listing ready to publish on Capabase.

How to use it

1. Open it free in Grok and add a copy.
2. Describe what your bot does, what's in the package, and your price range.
3. Work through each ready / needs action item.
4. Review the drafted text yourself; publish your listing separately.

Price

Free in Grok. Nothing to buy.
